Education

B.Tech in Computer Science and Engineering

Amrita Vishwa Vidyapeetham

2022 – 2026

CGPA: 7.61/10.0

Intermediate Education

Sri Chaitanya Junior College

2019 – 2021

Percentage: 98%

Secondary School Certificate (10th Standard)

St. Francis de Sales High School

2019

GPA: 10.0/10.0

Experience

Software Development Internship

May 2025 – Jun 2025

- Developed scalable RESTful APIs using Node.js and Express.js with MongoDB backend, supporting authentication, stock trading workflows, and portfolio management for 1000+ concurrent users with sub-second latency.

Projects

AI-Enhanced Cloud-Based Forest Monitoring System | Python, Vertex AI, BigQuery, Cloud Functions

- Built an automated deforestation detection system using satellite imagery and cloud-based AI services.
- Processed and analyzed 10K+ geospatial images using Google Earth Engine and Vertex AI pipelines.
- Implemented alerting mechanisms reducing environmental response time by 40%.
- Designed BigQuery-based analytics workflows for large-scale geospatial reporting.

Live Cricket Score Management System | React, Node.js, REST APIs, WebSockets

- Developed a real-time sports analytics platform with live scores and visualization dashboards.
- Enabled instant score updates using WebSocket-driven communication.
- Implemented match outcome prediction logic based on statistical analysis.
- Optimized application performance through backend tuning and frontend optimization.

Industrial Control System Malware Detection | Python, SARIMA, LSTM, TensorFlow

- Designed a hybrid model to detect industrial anomalies from time-series sensor data.
- Identified cyber-physical attacks through behavioral pattern deviations.
- Trained and validated models using SWaT and ICS-Flow benchmark datasets.

Technical Skills

Languages: JavaScript, Python, Java, C++, C

Web Development: HTML, CSS, Tailwind CSS, React.js, Node.js

Databases: SQL, MongoDB

Core Concepts: Data Structures, Algorithms, OOP

Tools: Linux, Git

Achievements

Research Paper Publication – Malware Detection

2025

Published at ICCNT 2025, IIT Indore (94% accuracy)

Participated in HackRx 6.0 and AeroHack innovation challenges, collaborating on prototype development, solution planning, and problem-solving in competitive environments.
